Spacing 5 - 7'

Bloom Color Pink White

Bloom Time Spring - Summer

Deer resistant Yes

USDA Hardiness Zone 4-8

Other Most fragrant, glossy green foliage turns orange in fall, hummingbird and pollinator friendly

Description

Sweet Emotion Abelia perfumes the air with a sweet jasmine scent. It puts out pink buds in spring that open to blush white blooms. Its glossy, green foliage turns to orange in fall. Its flowers are attractive to butterflies. It grows in average, moist, acidic, well-drained soils in full sun or part shade. Since it blooms on old wood, no pruning is needed immediately after flowering.
