Price : \$18.00

Price includes 6% MD sales tax

Description

This coneflower is a compact, herbaceous perennial that features large, fragrant, orange blooms with a dark central core on top of sturdy, yet compact green foliage. This is an exceptionally short variety with prolific blooms. The rich yellow flowers are loved by pollinators. The small size provides a great way to bring cone flowers to the front of your border or container in small urban spaces. Excellent as a cut flowers, it is attractive to butterflies, hummingbirds and other pollinators. Remove spent flowers and cut back stems to encourage further blooms.
