Bloom Color Pink White

Bloom Time Late Spring

Deer resistant Yes

USDA Hardiness Zone 6-9

Other Spring to Fall color. White flower clusters in late spring produces attractive red seed heads. Disease resistant and drought tolerant. Attracts pollinators and birds.

Description

Ginger Wine Ninebark is an easy to care, native flowering shrub. Spring foliage emerges in a sunny orange color and matures to sparkling burgundy. Clusters of spirea-like white flowers cover the plant in late spring that give rise to attractive red seed heads. This disease-resistant shrub does best in full sun locations and cooler climates. Blooms on old wood, so if necessary prune after flowering.
