Plum Dazzled
Stonecrop

Price : \$10.00

Price includes 6% MD sales tax

Exposure Full Sun

Height 6" - 8"

Spread 18"

Spacing 18"

Bloom Color Dark Purple

Bloom time Summer

Deer Resistant Yes

USDA Hardiness Zone 3 - 8

Description

Sedum 'Plum Dazzled' (Stonecrop) grows up to 6-8" and is a mat-forming perennial with an abundance of fleshy dark purple leaves. Best grown in full sun, it is very dense and well-branched. This sedum does not split open in summer and creates a colorful, weed-suppressing ground cover when planted en masse. Sitting atop short, upright stems, clusters of large, cherry, starry flowers appear in late summer to early fall. A great variety for rock gardens, containers, edgings, ground cover, gravel gardens and containers. Drought tolerant, 'Plum Dazzled' is evergreen in mild climates and attracts, bees, butterflies and hummingbirds.
